Dear José,

As requested, please receive my suggestions for the required articles. I hope you find them of use.

1. The 'MEDIA INFORMATION' is intended for faxing to Editor, Kompas, Suara Pembaruan, and Tempo, each together with a brief personal note from me to staff people I have met personally.

My thought was to stimulate them to contact you for an interview.

►Please confirm to me that you agree with this plan and with the text.

I will then proceed to fax them.

2. I would like to ask Goenawan Moehammad to get me into touch with Alatas again. If he proves too slow about it, I could try other channels still.

Given GM's positive disposition to a solution to ET, I feel it would be good if you spoke to him. I hope he contacts you as I insinuate in my fax to him. If not perhaps you could try to contact him. He will be in Amsterdam until June 1 or so. He went to collect a Dutch journalism prize he won.

If you agree with the idea, could you fax him the message I have prepared for him plus the 'MEDIA INFORMATION' sheet?

►Otherwise let me know and I will do it from here.

3. We understand XG would like a laptop computer to facilitate communications by sending diskettes. Do you agree if we supply such with a 'LetterPerfect' software. It would be compatible to ours. If funds are available, Céu could take on 17 June.

4. Any other material needed to be sent should reach us prior to that date.

5. Céu needs to mail you some material from her last trip. Please advise a mailing address.

6. I was told that Alfredo had a good radio interview this morning heard throughout Australia. It appears your chat worked!

Best regards,
